EDUCATION

Tecnológico de Monterrey Zapopan, Mexico
Bachelor's Degree in Finance *June 2026*
- Ranked Top 55 worldwide in Accounting & Finance (QS World University Rankings 2026)
- Certification: LSEG Workspace

Université Paris Dauphine Paris, France
Exchange Program in Finance *Aug 2025 – Dec 2025*
- Ranked #19 in the world (Center for World University Rankings 2025); #2 for Finance studies in France
- Coursework also included: Power of Pricing, Computer Science, Digital Marketing, Art of AI

Tecnológico de Monterrey Zapopan, Mexico
Bachelor of Science in Business Intelligence, GPA: 4.0 *June 2025*
- Recognized as the only Tec program combining AI, data, and strategy; ranked #1 private university in Mexico (QS World University Rankings 2026)
- Vice President, Business Intelligence Student's Society — grew program enrollment from two sections to three through outreach conferences and Q&A sessions for prospective students
- Organized and executed integration and networking events to strengthen the Business Intelligence student community
- Hi-Tec Captain (2 years) — led a team of incoming students during Tec de Monterrey's annual induction and welcome event; provided ongoing follow-ups and check-ins throughout their first semesters, identifying questions and providing academic and personal support to ensure their successful integration

EXPERIENCE

HP Inc. Zapopan, Mexico
Business Intelligence in Finance Intern *May 2024 – May 2025*
- Automated the weekly data-cleaning process for Brazil and LatAm finance reporting using Python, cutting processing time from 6 hours to 30 minutes per week (92% reduction)
- Conducted statistical analyses in Excel on leasing, cost of sales, and revenue across global device and cloud service lines
- Built pivot tables and macros, and cleaned databases via SQL and Excel to enable financial analysis at multiple levels of the business
- Created data visualizations in Microsoft Power BI to support decision-making for senior management
- Built APIs and automated workflows for data access, and performed web scraping and data collection in Python to support analysis
- Applied machine learning and AI techniques to strengthen predictive analytics, and tracked KPIs through strategic reporting
- Delivered ad hoc analytics projects and user support requested by managers across teams, helping them reduce turnaround time and surface actionable insights from data

Sersana Method Guadalajara, Mexico
Business Analyst Intern *Mar 2023 – Jun 2023*
- Identified customer clusters through database analysis to enable targeted marketing of class offerings, increasing exercise package sales by 4%
- Conducted statistical analyses using Excel and Python for a women-led fitness franchise

Muebles Jaiper Chihuahua, Mexico
Business Intelligence Analyst, Part-time *Jan 2022 – Feb 2023*
- Analyzed sales data and product-similarity patterns to inform new furniture designs based on Coppel client purchasing behavior, increasing product sales by 10%
- Executed data analysis using SQL, Microsoft Excel, and statistical methods to identify revenue-boosting opportunities

Parque Tecnológico Orión ITESM Chihuahua, Mexico
Customer Experience Manager Intern *Aug 2022 – Dec 2022*
- Organized and managed projects to enhance customer and employee experience, applying customer marketing and innovation-development principles
- Applied leadership skills as the manager responsible for a team of interns, overseeing event organization, customer service, and user support

ACADEMIC ACHIEVEMENTS

ARAUCO — Predictive & Production Optimization Model 2024

1st Place, Tec de Monterrey Coursework Competition — Team Project

- Extracted the cost of each proposal, comparing it against projected impact to select the highest-value proposals among those developed by the team
- Developed a predictive and optimization model using ARAUCO manufacturing data — costs, units produced, client/product IDs, and production dates — identifying cost-efficiency opportunities and improving production planning through advanced analytics
- Proposed customer-facing value propositions to differentiate ARAUCO in the market — including a furniture customization platform (professional-assembly or DIY options), an AI-powered purchasing assistant, and an employee/customer rewards program — and defined KPIs to track the proposal's implementation and results

AMSE — Market Positioning & Pricing Strategy 2024

1st Place, Tec de Monterrey Coursework Competition — Team Project

- Led competitive pricing analysis for AMSE, a kitchenware company — built an External Factor Evaluation (EFE) matrix and a competitor positioning map to assess market opportunity, evaluating industry benchmarks and customer segments
- Built a dynamic financial dashboard to support leadership decision-making on pricing and market-entry strategy
- Ran an ARIMA time-series model to forecast units manufactured and sales, informing the final pricing recommendation
- Defined KPIs to track the proposal's performance post-implementation

COMMUNITY INVOLVEMENT

TECHO Guadalajara Guadalajara, Mexico

Community Service — Equipos de Comunidad *Jan 2024 – Apr 2024*

- Led fundraising activities supporting the construction of homes for families in need

Tecnolochicas Remote, Mexico

Programming Tutor *Jan 2024 – Apr 2024*

- Taught basic programming and web development to a class of 6 middle-school girls with limited access to opportunities, guiding each student to build her own webpage from scratch

JANN — Jóvenes Ayudando a Niños y Niñas Remote

Elementary Math Tutor *Dec 2023 – Feb 2024*

- Provided free, fully online tutoring in elementary-level mathematics, helping children complete homework and resolve questions as part of a nonprofit peer-tutoring program

CRIT Chihuahua (Teletón) Chihuahua, Mexico

Community Service *Aug 2022 – Dec 2022*

- Created outreach materials and delivered public talks on the CRIT's mission to raise awareness and encourage donations and volunteering
- Led and supported toy and clothing donation drives
